

ADR Course (Initial) 5 Days (35 Hours) Valid for 5 years

This ADR Initial Course is delivered over five days and is designed to help employers meet their obligations under ADR Regulations and HSE Guidance for the transport of hazardous goods by road. It will also qualify a Goods Vehicle Driver for 28 hours CPC upload to the DVSA Drivers DQC Record.

During the course, students will develop the skills and knowledge needed to attain an ADR Qualification. The course involves four days of input and one day of SQA Accredited Exams (10 in total). The Initial Course can accommodate candidates who do not wish to do all Classes or either Tanks or Packages (Core, Tanks, and Class 2 requires Day 1, Day 2, Day 4, and Day 5) or (Core, Packs, and Class 2 requires Day 1, Day 2, and Day 5), etc.

This Course must be refreshed five weeks before the end date on the ADR Certificate and can be done any time in the last year, without shortening the accreditation (e.g., ADR Expires **March** 2023, Refresher completed July 2022, the new card will expire **March** 2028, 5 years and 8 months after the Refresher).

HTS Instructors are all very experienced First Aid practitioners with many years of experience in Industrial, Transport, Commercial, Office, Shop, and Emergency Trauma Response Training. They will always tailor each course to the individual needs of the class and workplace setting as required.
