

Forestry Emergency First Aid at Work (EFAW+F)

1 Day (7 Hours) Valid for 3 years

This EFAW+F course is delivered over one day and is designed to help employers meet their obligation under HSE Guidance for Emergency First Aid at work.

During the course, students will develop the skills and knowledge needed to deal with a range of emergency first aid situations, including administering CPR, using a defibrillator, dealing with wounds and bleeding, minor injuries, Amputation, Catastrophic Bleeding, Hypothermia, Suspension Trauma, Crush Injury, Trauma Bandaging and much more.

HTS Instructors are all very experienced First Aid practitioners with many years of experience in Industrial, Transport, Commercial, Office, Shop, and Emergency Trauma Response Training. They will always tailor each course to the individual needs of the class and workplace setting as required.

Course Content

- 
- A large, light red map of Scotland is positioned in the background, partially behind the course content list.
